Sounda Abdelkerim Ahmat

MASTER'S STUDENT IN CYBERSECURITY

Departtment of cybersecurity-UIR | +212 726 560 487 | soundakerim8@gmail.com | linkedin.com/in/sounda-abdelkerim-ahmat

Master's student in Cybersecurity at Université Internationale de Rabat (UIR), with a strong interest in IT security auditing, information security, GRC, and network and systems security. Through academic and professional experiences, I have developed practical skills in security assessment, risk analysis, system administration, and cybersecurity monitoring. I am currently seeking a 6-month Final-Year Internship (PFE) starting in January 2027.

PROFESSIONAL EXPERIENCE

INFORMATION TECHNOLOGY INTERN
PFA RESEARCH INTERSHIP **Aug 2026**
UNIVERSITÉ INTERNATIONALE DE RABAT (UIR) — RABAT, MOROCCO
Anomaly Detection in critical Infrastructure

- Implementation of an AI-based anomaly detection approach.
- False Positive Reduction
- Class Imbalance Handling

Jun-Nov.**2023**
GIZ Chad — N'Djamena, Chad

- Supported IT infrastructure and computer equipment management.
- Performed equipment maintenance, troubleshooting, and technical support for users.
- Worked on a small Active Directory project using Windows Server, including user account creation and management.

Jun-Dec.***2022***
CYBERSECURITY AUDIT INTERN
ANSICE — National Agency for Computer Security and Electronic Certification — N'Djamena, Chad

- Participated in information security audits of six public institutions.
- Developed audit questionnaires based on ISO/IEC 27002 and contributed to on-site organizational and physical security assessments.
- Contributed to maturity scoring, security recommendations, and corrective action plans for the audited institutions.

IT INTERN – TECHNICAL TEAM / SERVER ROOM Dec ***2021***
ASECNA — N'Djamena, Chad

- Assisted with basic computer hardware maintenance and troubleshooting.
- Provided basic IT support and gained exposure to server-room operations.

EDUCATION

MASTER'S DEGREE IN CYBERSECURITY 2025 - 2027
Université Internationale de Rabat (UIR) — Rabat, Morocco
Relevant coursework: GRC, Network Security, Ethical Hacking, Cyber Threat Intelligence & SOC, Digital Forensics, Cryptography, Cloud Computing and Security of Emerging Technologies.

BACHELOR'S DEGREE IN COMPUTER SCIENCE – CYBERSECURITY 2019 - 2022
ENASTIC — N'Djamena, Chad

ACADEMIC PROJECTS

I**nformation Security Maturity Assessment – ISO/IEC 27002**

- Assessed the information security maturity of six public institutions using ISO/IEC 27002.
- Developed audit questionnaires, evaluated maturity levels and proposed corrective action plans.

ThreatIntel Core – Cyber Threat Intelligence Platform

- Developed a Flask-based CTI platform integrating MITRE ATT&CK, CISA KEV and AlienVault OTX.
- Correlated threat actors, CVEs and MITRE techniques and generated automated CTI reports.

Windows & Linux System Security and Hardening

- Deployed and secured a Windows Server / Ubuntu environment with Active Directory.
- Analyzed authentication logs and implemented hardening measures including Fail2Ban, SSH keys and password policies.

TECHNICAL SKILLS

- **Security & Audit:** IT Security Audit, GRC, ISO/IEC 27002, Risk Assessment, Ethical Hacking, Security Monitoring
- **Systems & Networks:** Windows Server, Active Directory, Linux, System Hardening, Network Security
- **Cyber Threat Intelligence:** MITRE ATT&CK, CTI, Log Analysis
- **Programming & Tools:** Python, Flask, SQL, VMware, linux etc

CERTIFICATIONS

- **Ethical Hacker — Cisco Networking Academy** Apr 2026
- **OPSWAT Cybersecurity Fundamentals Associate — OPSWAT Academy**
- **Introduction to Critical Infrastructure Protection — OPSWAT Academy** Oct 2026

LANGUAGES

French: Full Professional Proficiency **| English:** Limited Working Proficiency **| Arabic:** Native/Bilingual Proficiency
